STEM/AVIATION SUMMER CAMPS
For the first time ever, Wings of Hope is inviting students into our hangar for a summer camp experience that soars above the rest. Participants will engage in different aviation and STEM projects focused around daily challenges featuring LEGO® Education. All camps are taught by a certified educator and feature hands-on STEM and aviation activities. Open to students 14 and older. (Soar into STEM school-year program participants may participate if 12 and older.)

CAMP 1:
June 17-19, 9 a.m.-4 p.m.

CAMP 2:
July 15-17, 9 a.m.-4 p.m.

COST: $150 per camp, lunch is not provided.

Financial assistance is available.

Please contact Development & Engagement Manager Brooke Bennett at brooke.bennett@wingsofhope.ngo or 636-778-5508 for more information.

HANGAR OPERATIONS INTERNSHIPS
Get up close and personal with small aircraft with support from certified mechanics and pilots in the Wings of Hope hangar. Interns will support the day-to-day workings of a humanitarian aviation nonprofit and general hangar operations with opportunities for hands-on aircraft maintenance. Wings of Hope will track attendance and will be able to confirm any necessary community service hours and provide a letter of recommendation upon request. Lunch is not provided. Summer internships are available in June and July 2020. Additional slots are available from August 3-14. Ideal for high school and college-aged students. Interns must be 14 and older.

Students MUST participate in an informational session before starting an internship.

Informational session dates:
June 3, 4-6 p.m.
June 5, 1-3 p.m.
June 30, 4-6 p.m.
July 3, 1-3 p.m.
Aug. 3, 9:30-11:30 a.m.
