

GRAND PRIZE

1965 Cessna 172 Skyhawk

The Cessna 172 Skyhawk is the most produced aircraft in history, with over 44,000 units built and has been in continuous production since 1956. Its popularity stems from its versatility, reliability, and suitability for flight training and personal use. You'll be proud to be the pilot of this 1965 Skyhawk with an upgraded suite of Garmin IFR avionics. This model year 172 was the first with electric flaps. It has the rear window and basic appearance of a brand-new 172 with a 900 lb useful load. The plane has 6,700 TT and the smooth 6 cylinder Continental 145 HP engine.

Meet Valentina

Valentina took her first flight with Wings of Hope in January 2023.

"I needed surgery on my femur because my left one was shorter than my right one," she said. "Unfortunately, I wasn't able to do it in Tennessee, and Shriners Hospital was the best place to do it here in St. Louis."

Leg-lengthening is a long process that requires multiple surgeries, physical therapy, and follow-up appointments. In a little over two years, we flew Valentina 12 times — saving Valentina and her mom the 10-hour roundtrip drive from Nashville. Today, the 19-year-old has finished treatment and is excited to study economics in college.

"Without Wings of Hope, I wouldn't have been able to get my very first surgery which helped me even out my legs and my femur. And, today, I wouldn't be able to hike and do things outdoors."

100% of the proceeds from this airplane raffle support our mission of changing and saving lives through the power of aviation — thank you!

Tickets go on sale September 9, 2025 at 12am Central Time.
