

GRAND PRIZE

Cessna N206KY

Wings of Hope's First U.S. Medical Transport Plane

The Cessna 206 is a workhorse of a plane with a well-earned reputation for flying in even the most demanding environments. But the winner of this particular Cessna — delivered with a fresh annual inspection and IFR certification — will be taking home a piece of Wings of Hope history.

N206KY flew Wings of Hope's first domestic medical patient mission in 2003, marking the launch of our U.S. Medical Relief & Air Transport (MAT) Program.

While its days of flying patient missions have passed, N206KY is ready for its next chapter — it just needs you to write the story.

TICKETS ON SALE MARCH 10!

**Only 5,000
available!**

1 ticket
\$100 OR 3 tickets
\$275

Meet Caleb

Caleb was born with his right femur shorter than his left. Wings of Hope flies him from his home in Wichita, Kans., to Shriners Children's St. Louis to lengthen his leg — a process that requires multiple surgeries and years of treatment. The 16-year-old had his first appointment in St. Louis when he was only two and has flown with Wings of Hope about 20 roundtrip flights.

Caleb plans to return to Shriners for one final leg-lengthening surgery in the summer of 2026. He and his mom will stay in St. Louis about 4-6 weeks for post-surgery appointments. Then, Wings of Hope will fly him back to Shriners every other week, at first, and periodically for the next 18-24 months — until his leg is fully healed.

100% of the proceeds from this airplane raffle support our mission of changing and saving lives through the power of aviation — thank you!

**Tickets go on sale March 10 at 12am Central Time.
Don't wait to get yours — tickets sell out fast!**
